PAUL CROWLEY, being duly sworn, hereby deposes and, under the penalties of perjury, states as follows:

1. My name is Paul Crowley. I reside at 4 Dalewood Drive, Suffern, New York and I am a registered voter who voted in the Town of Ramapo special election held on September 30, 2014 (the "Special Election").

2. My wife Kathy and I went to our designated polling place, FountainView at College Road in Monsey, New York, in the evening after work.

3. We were shocked to find what I can only describe as utter chaos at the polling location. There was a crowd of Hasidic or Orthodox Jewish people waiting to vote. There were long lines and my wife and I waited, watching person after person before us checking in and stating that they were not in the registration books but wanted to vote.

4. The poll workers were handing out ballots to these voters along with a form for them to fill out. They were not requesting any identification at all to confirm any information. In fact, one couple in front of us who were both unregistered asked if the poll inspectors wanted to see identification and the inspector said, "No."

5. We are registered voters and were surprised to learn for the first time that unregistered voters could vote in the Special Election and were very disheartened that no one was checking any identification to confirm names, addresses, etc.

6. In addition, when we were there voting, we learned that the voting machine was allegedly not working and I watched all ballots, both from registered voters and unregistered voters, being deposited into a box below the machine, without differentiation.

7. My wife and I left feeling very disillusioned with the whole voting process for the Special Election. I felt that the entire scenario was ripe for fraud and was quite relieved when I heard the ballots had been impounded by a court.
