Deborah

A copy of the affidavit data base in excel format is attached.

Chris advises he could not locate a ballot reconciliation form for Yeshiva Viznitz.

A copy of the Absentee Ballot application is attached.

Hi Maureen,

Thanks for following up. Of course the count went down when I was finally taking a vacation!

I sent a note to Chris Sampson about finally releasing the database of the ward and sent instructions on exporting to excel (which is simplistic!). I would like to get that today. It has been long enough.

Also he sent me 26 ballot reconciliation forms. One of the polling locations was missing - yeshiva visnitz (not the girls school) entirely and there was nothing for the Town of Ramapo related to the issuing of the ballots for the absentees. Can you confirm whether or not those two even exist?

Thanks

Deb
